

We're Proud to Offer

A Smile to Remember

The TheraSmile® Whitening Experience

Your dental professional provides the very best treatment option available so that you can have a memorable smile. That's why they've chosen to offer the most innovative teeth whitening technology available.

TheraSmile® Whitening is the first in-office procedure to deliver stunning results with an extraordinary level of patient comfort, all in a single-visit.

3 Easy Steps to Your Stunning New Smile

STEP 1

INNOVATIVE GUM PROTECTION

The best in-office whitening procedures require complete protection of your gums. TheraSmile Whitening provides the ultimate in safety and assurance.

STEP 2

HYDRATED MOUTHPIECE

Experience little to no sensitivity with a soft mouthpiece that enables whitening gel to cover all surfaces of the teeth.

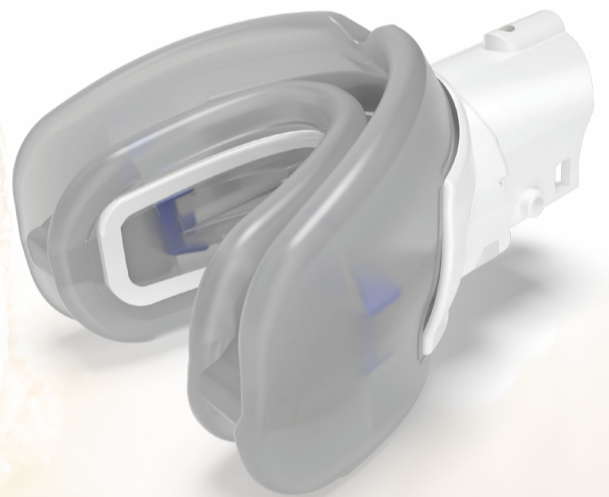

STEP 3

AUTOMATED PROCEDURE

Sit back, relax and enjoy a highly effective spa treatment for your teeth, knowing you're minutes away from your beautiful new smile.

What is Hydration Whitening?

Patients often complain about sensitivity and color shift (darkening) after in-office whitening treatments. Your dentist has chosen the TheraSmile Whitening treatment as a solution to those problems. By keeping your mouth fully hydrated during the entire treatment, the patented TheraSmile Whitening mouthpiece is designed to provide you with a more comfortable and effective whitening experience than ever before, to deliver spectacular results.

The TheraSmile® Whitening Mouthpiece

The TheraSmile® Whitening Difference

Unparalleled tooth coverage. Fully hydrated environment designed to reduce sensitivity. Highest volume of whitening gel available. All in a comfortable and automated procedure that is designed to give you the very best in-office whitening experience possible—and spectacular results that last.
